2007 Supply Chain Forum

Agenda

- **Registration, Breakfast, and Networking**
- **How Technology Can Help the Industry**
Doreen Wakefield, CEO, Plan b Solutions
- **Supply Chain Challenges: The Independent Exploration & Development Company View**
David French, Director, EH&S, Procurement and General Services, Apache Corporation
- **Questions and Answers**

Plan b Solutions works with businesses to assess and improve overall operations by leveraging Plan b's business experience and technology solutions. Plan b focuses on helping companies become more profitable by:

- 1) Identifying operational areas where process and technology can contribute to streamlining operations and optimizing costs**
- 2) Finding areas where technological improvements can assist in enhancing revenues**

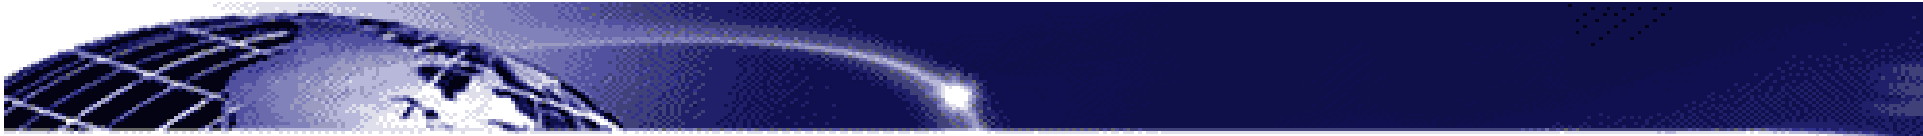

Doreen Wakefield

Apache Corporation is an independent energy company that explores for, develops and produces natural gas, crude oil and natural gas liquids.

Apache was formed in 1954 with the simple concept of becoming a significant and profitable oil company. It is now one of the world's top independent oil and gas exploration and development companies with \$24.3 billion in assets and operations in six countries — the United States, Canada, Egypt, Australia, the United Kingdom and Argentina.
